

DARLINGTON NUCLEAR REFURBISHMENT PROJECT

30 more years of clean electricity

Nuclear energy plays a fundamental role in Ontario's clean-energy equation

The refurbished Darlington Station will reduce greenhouse gas emissions by an estimated

297
million tones

That's the equivalent of removing

2 million cars per year from Ontario's roads

1 in 5

homes and businesses are powered by Darlington with virtually no greenhouse gases

~20%

of Ontario's power is supplied by Darlington – enough to serve a city of 2 million people

60%

of Ontario's daily electricity needs are supplied by this province's nuclear fleet

8¢ kWh

30 years of power below average costs
